

PLEASE PLEASE do not touch the do not call service for New Jersey. Before the Act was written and implemented we would get no less then 10 telemarketing calls a day. It got so bad we just unplugged our phone. The calls would often wake our baby from sleep. No that the act is in place we are not getting unsolicited telemarketing phone calls. THIS IS GREAT! Please please don't change or get rid of this Act. It won't help the economy, in fact it may hurt it as I know myself and others will just cancel our phone service.
